

Tape Cores

With almost a century of experience producing tape cores, Sonoco Alcore™ is the leading provider of adhesive tape cores that serve the polypropylene, PVC, paper, masking and various other forms of tape markets.

The cores we deliver focus on cut quality, and meeting the required dimensions and specification. We can meet your technical specifications by choosing from the selection of in-house coreboard available.

With multiple facilities in Europe producing tape cores and a dedicated facility in Italy, Sonoco Alcore™ sets the standards in terms of products and services delivered to the tape industry.

BENEFITS IN BRIEF

- *Inside diameters ranging from 25.4mm to 154mm*
- *Wall thicknesses ranging from 2mm to 6mm*
